

The New, Improved Giverny Flower— Cut out! Snap Together! Enjoy!

Instructions:

- Photocopy picture onto cardstock. Enlarge the image to whatever size flower you want. Try a variety of sizes for a whole garden
 - Cut out along solid lines with a sharp X-acto knife
 - Cut slots along interior solid lines, and holes at the X's
 - Fold along dotted lines
 - Insert tabs into corresponding slots
 - Insert stem through inside of the base
 - Insert leaf into stem
 - Place petals on top of stem
 - Insert stamen into opening in top of stem
- (Note: you may need to stabilize your flower by taping useless, old francs to the interior of the base, or the bottom of the stem.)
